DESIGN OF THE SCHOOL.

THE Legislature, by an act passed May 16, 1870, made instruction in drawing obligatory in the public day schools, and required cities and towns containing more than ten thousand inhabitants to make provisions for free instruction in industrial drawing to persons over fifteen years of age. It was soon found impossible to realize satisfactorily the benefits intended by this act, for want of competent teachers. A resolve was therefore passed by the Legislature in 1873 providing for the establishment of a State Normal Art School.

Its purpose is to train teachers and supervisors of industrial art. To this end it provides advanced courses in free-hand and instrumental drawing, painting and modeling, and their applications to industry.

COURSES OF INSTRUCTION.

Class A embraces elementary drawing; Class B, drawing, painting and design; Class C, the constructive arts, design and shop work; and Class D, modeling and design. There is also a special class in applied design. The Public School Class is devoted to methods of teaching and supervising drawing, with special reference to the public schools.

TIME ALLOTTED TO THE COURSES.

The first course requires four years. It embraces the work of classes A and B and the elementary course of C and D, followed by a year in the Public School Class.

The second course requires four years. It embraces the work of classes A, B and D, with normal instruction from the teachers of those classes.

The third course requires three years. It embraces the work of Class A and the elementary and advanced work of Class C, with normal instruction from the teachers of those classes.

Pupils completing the work of Class A may choose one or more of the courses offered by the school.

Special Classes in Applied Design.

Regular pupils from the advanced classes are eligible to enter these classes; also special pupils who have had a previous art training, and pass a satisfactory examination.

LECTURES.

Class lectures are given each year on the history of art, on design, anatomy and perspective. One or more special lecture courses will be given during the year. *All pupils are required to attend them.*

CONDITIONS OF ADMISSION.

Candidates must be over sixteen years of age; must bring a certificate of moral character from some well-known person in the town where they reside, and must present a high school diploma or its equivalent.

Entrance examinations will be held on Monday and on Tuesday, September 23 and 24, 1901, in the following subjects:—

Light and shade from objects.

Light and shade from cast of ornament.

Light and shade from details of the antique.

Tuition is free to pupils residing within the State and intending to teach drawing in the public schools.

From and after the beginning of the autumn session of 1901 there shall be paid to the principal, by each pupil from another state than Massachusetts attending the Normal Art School, the sum of fifty dollars for each half year.

Special pupils must pay fifty dollars per term and will be admitted under such regulations as the Board of Visitors prescribes.

Regular pupils cannot remain in any one class more than two years.

Graduates may continue their studies for one year upon invitation of the principal.

Five dollars per term is charged for incidentals.

All fees are payable in advance to the curator.

PHYSICIANS' CERTIFICATES AND EXAMINATIONS.

Every candidate is required to present a certificate from a reliable physician, stating that he or she is physically fitted to undertake the contemplated course of study, and giving information as to any physical weakness the candidate may have.

The Board of Education, at its meeting on March 7, 1901, adopted the following vote, and ordered it to be printed in the catalogs of all the normal schools:—

“That the visitors of the several normal schools be authorized and directed to provide for a physical examination of candidates for admission to the normal schools, in order to determine whether they are free from any disease or infirmity which would unfit them for the office of teacher, and also to examine any student at any time in the course, to determine whether his physical condition is such as to warrant his continuance in the school.”

SCHOOL YEAR.

The year is divided into two terms. The first term begins September 23, 1901 and ends February 14, 1902. The second term begins February 17 and ends June 19, 1902.

The sessions are from 9 A.M., to 2 P.M., except Saturdays, with a recess of half an hour at noon.

Extra sessions will be held on four Saturdays during the fall.

Vacations and holidays are as follows: Thanksgiving Day and the remainder of the week; Christmas Day to New Year's Day inclusive, Washington's Birthday, Patriot's Day, one week beginning the first Monday in April, and Decoration Day.

SPECIAL NOTICE.

Works of all pupils from each of the classes must be submitted to the principal and members of the faculty four times during the school year. At the end of each term pupils who have made little or no progress in their studies and also have shown an indifference to proper deportment, or a disregard for punctuality, will be requested by the principal, with the approval of the Board of Visitors, to retire from the school.

EXAMINATIONS AND DIPLOMAS.

Pupils failing to pass any examination may apply the following year, on condition that they again perform all class work required in that subject.

Diplomas are awarded to graduates of the several courses. Recognition will be given to special pupils for work done.

RECOMMENDATION FOR APPOINTMENT.

Applications for teachers should be made directly to the principal. Such applications will be brought to the attention of pupils best prepared to do the required work.

LUNCHEONS.

A hot lunch is provided every day for the pupils of the school, at very low rates, from 12 to 12.30.
